RESEARCH AND THE UNIVERSITY GRADUATE SCHOOL

Re: Research Grants

Dear Sir/Madam:

The Office of Sponsored Research Services of Indiana University is charged with assisting faculty members and graduate students of the University who are seeking sources of support for research, instruction, equipment, and other scholarly activities. We try to match the faculty members and students with the foundation or agency most interested in their projects.

We are updating our library and would appreciate receiving from you any information you have that describes your support to higher education, especially grants and fellowships. We would appreciate receiving guidelines, application forms, pamphlets, brochures or annual reports from you for use by our faculty and graduate students.

Your assistance is greatly appreciated.

Sincerely,

Cris Coffey

Ms. Cris Coffey
